

# Sahrmann Diagnosis and Treatment of Movement Impairment Syndromes Course - Neck and Shoulder

Shirley Sahrmann's Movement System Impairment Syndromes (MSI) courses offer the opportunity to learn how to properly observe, identify and treat impairments of the movement system.

**Shirley Sahrmann, PT, PhD, FAPTA** is Professor Emerita of Physical Therapy at Washington University School of Medicine, St. Louis, Missouri. Dr. Sahrmann has been a keynote speaker at the World Confederation of Physical Therapy, and has received numerous International awards. The MSI syndromes were developed by Shirley Sahrmann and have stood the test of time. These syndromes are described in her books, *Diagnosis and Treatment of Movement Impairment Syndromes and Movement System Impairment Syndromes of the Extremities, Cervical and Thoracic Spine*.

### Course Description:

In this course, participants will gain knowledge and skills to develop a structured approach to diagnosis and treatment of patients with movement system impairment syndromes (MSI). You will learn to identify faulty alignment, movement patterns, and muscle imbalances using observation of movement as well as muscle length and strength testing. Through this method, the root cause of the patient's complaints is addressed, rather than treating the symptoms alone. This virtual course allows for close-up theoretical and supervised practical instruction of the respective body regions.

Date of course:	Saturday, March 27 + Sunday March 28, 2021 8:30 AM - 4:00 PM (Eastern Time Zone) both days		
Location of Course:	Course will be offered Virtually. Format will be through ZOOM Video Meeting app. Details will be sent to you prior to course date.
